

I have been a XM Radio customer for over a year and I feel traffic and weather channels are a benefit to the listeners. Satellite radio provides programming variety and quality that is not available anywhere else. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge you to reject the NAB's petition 04-160 and to support XM radio's ability to provide the kind of programming that I demand and deserve.
